

ENTERPRISE BUSINESS SYSTEMS
CONVERGENCE

Enterprise Business Systems – Convergence Industry Day

February 25, 2021

ENTERPRISE BUSINESS SYSTEMS
CONVERGENCE

EBS-CONVERGENCE INDUSTRY DAY WILL BEGIN SHORTLY

Agenda

Time	Activity
09:00 AM	Administrative Remarks Maj. Zane Williams, Assistant Product Manager, EBS-C
09:05 AM	Opening Remarks Mr. Ross R. Guckert, SES, Program Executive Officer, PEO EIS Brig. Gen. Michael Lalor, Director, EBS-C MFCT
09:30 AM	Program Overview Ms. Jeannie Winchester Product Lead, EBS-C, PEO EIS
09:50 AM	Functional Overview Ms. Jodi Narel, Chief EBS-Convergence Architect, EBS-C MFCT
10:15 AM	Break
10:30 AM	Q&A
11:30 PM	End of Industry Day

Industry Day Ground Rules

- This brief is marked “Distribution Statement A. Approved for Public Release, Distribution Unlimited.”
- The Government will not publish Industry-Proprietary questions/comments or their responses.
- The Government intends to publish Industry-General frequently asked questions (FAQs) with Government-prepared responses.
- Nothing presented in this Industry Day commits the U.S. Army to any acquisition approach, agreement or contract.
- Any future published opportunity will take precedence over information presented today or in response to questions.
- The “final” version of these slides and a list of the registered companies will be posted to www.beta.SAM.gov Opportunity: Enterprise Business Systems Convergence; ID: UNAWRD-21-R-EBSC.
- The Government will RECORD this Industry Day event, and the recording will be published on the PEO EIS Facebook page.
- Please post your questions in the Q&A section of Teams or submit them via Facebook or YouTube, and we will respond to as many as possible.

Background

EBS-Convergence

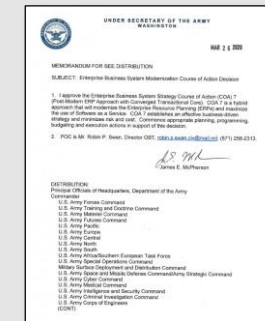

The Army's current operational backbone of Enterprise Business Systems (EBS) lacks agility and the capacity to seamlessly share information between systems and commands. As a result, the Army is investing to transform how it does business in order to operate at the speed of conflict during the information age. The effort, EBS-Convergence, will be supported by a cross-functional and matrixed organization.

EBS-Convergence will implement a modernization approach that will improve how all business is done and reported in a rapidly modernizing Army by reengineering existing processes and developing the full range of needed requirements to enable readiness generation, modernization and direct business-related support from the strategic support area to the tactical edge – **“As Commercial as Possible, as Military as Necessary.”**

Modernization Activities

- ✓ **April-December 2019** Office of Business Transformation (OBT) led 55 Army organizations through military decision-making process analysis to develop courses of action on EBS modernization
- ✓ **March 26, 2020** USA memo approving modernization strategy
 - Hybrid approach that will modernize the Enterprise Resource Planning (ERPs) and maximize use of Software-as-a-Service
- ✓ **June 8, 2020** USA memo establishing the EBS-Multi-Functional Capabilities Team (EBS-MFCT) in support of ERP Modernization
- ✓ **July 14, 2020** DoDI 5000.75 Business Capability Acquisition Cycle Problem Verification Form (PVF) approved by OBT
- ✓ **August 21, 2020** Governance structure ratified by USA
- ✓ **November 16, 2020** Capability Requirements Document (CRD) Part 1 complete
- ✓ **February 3, 2021** EBS-C Product Office Assumption of Charter Ceremony at PEO EIS

Why Modernize?

CURRENT STATUS

- Redundant, siloed, sub-optimized processes
- No end-to-end visibility
- Brittle IT infrastructure and highly manual processes
- Unaffordable sustainment costs
- On-premise, rigid architectures

MODERNIZATION WILL PROVIDE

- Measurable, effective and efficient processes
- Single source of truth
- Human-centric user experience
- Return on investments and lower total cost of ownership
- Cloud-based and service-oriented architecture

“As Commercial as Possible, as Military as Necessary”

Business Benefits

INTEGRATED INFORMATION

All customer and financial data, housed in one location.

Enhanced UI/UX

Intuitive UI/UX increases ease of use across multiple platforms

End-to-end Visibility

See financial and supply chain data from national down to the warfighter

Eliminate redundant processes and tasks through automation.

PRODUCTIVITY

Industry Best Practices

Keep pace with the commercial industry's leading companies

Increase Readiness

Allow the Warfighter to focus on their mission with an efficient and effective ERP

Transactional Core

Streamline operations for the Warfighter with major financial and logistics processes in a single system

SECURITY & Regulatory Compliance

Keep data safe and regulated with built-in protections.

Forecasting &

Reporting

CUSTOMER SERVICE

Faster, more accurate access to customers' information and history.

Slides are pre-decisional.

Convergence Roadmap

Top Tier DBS

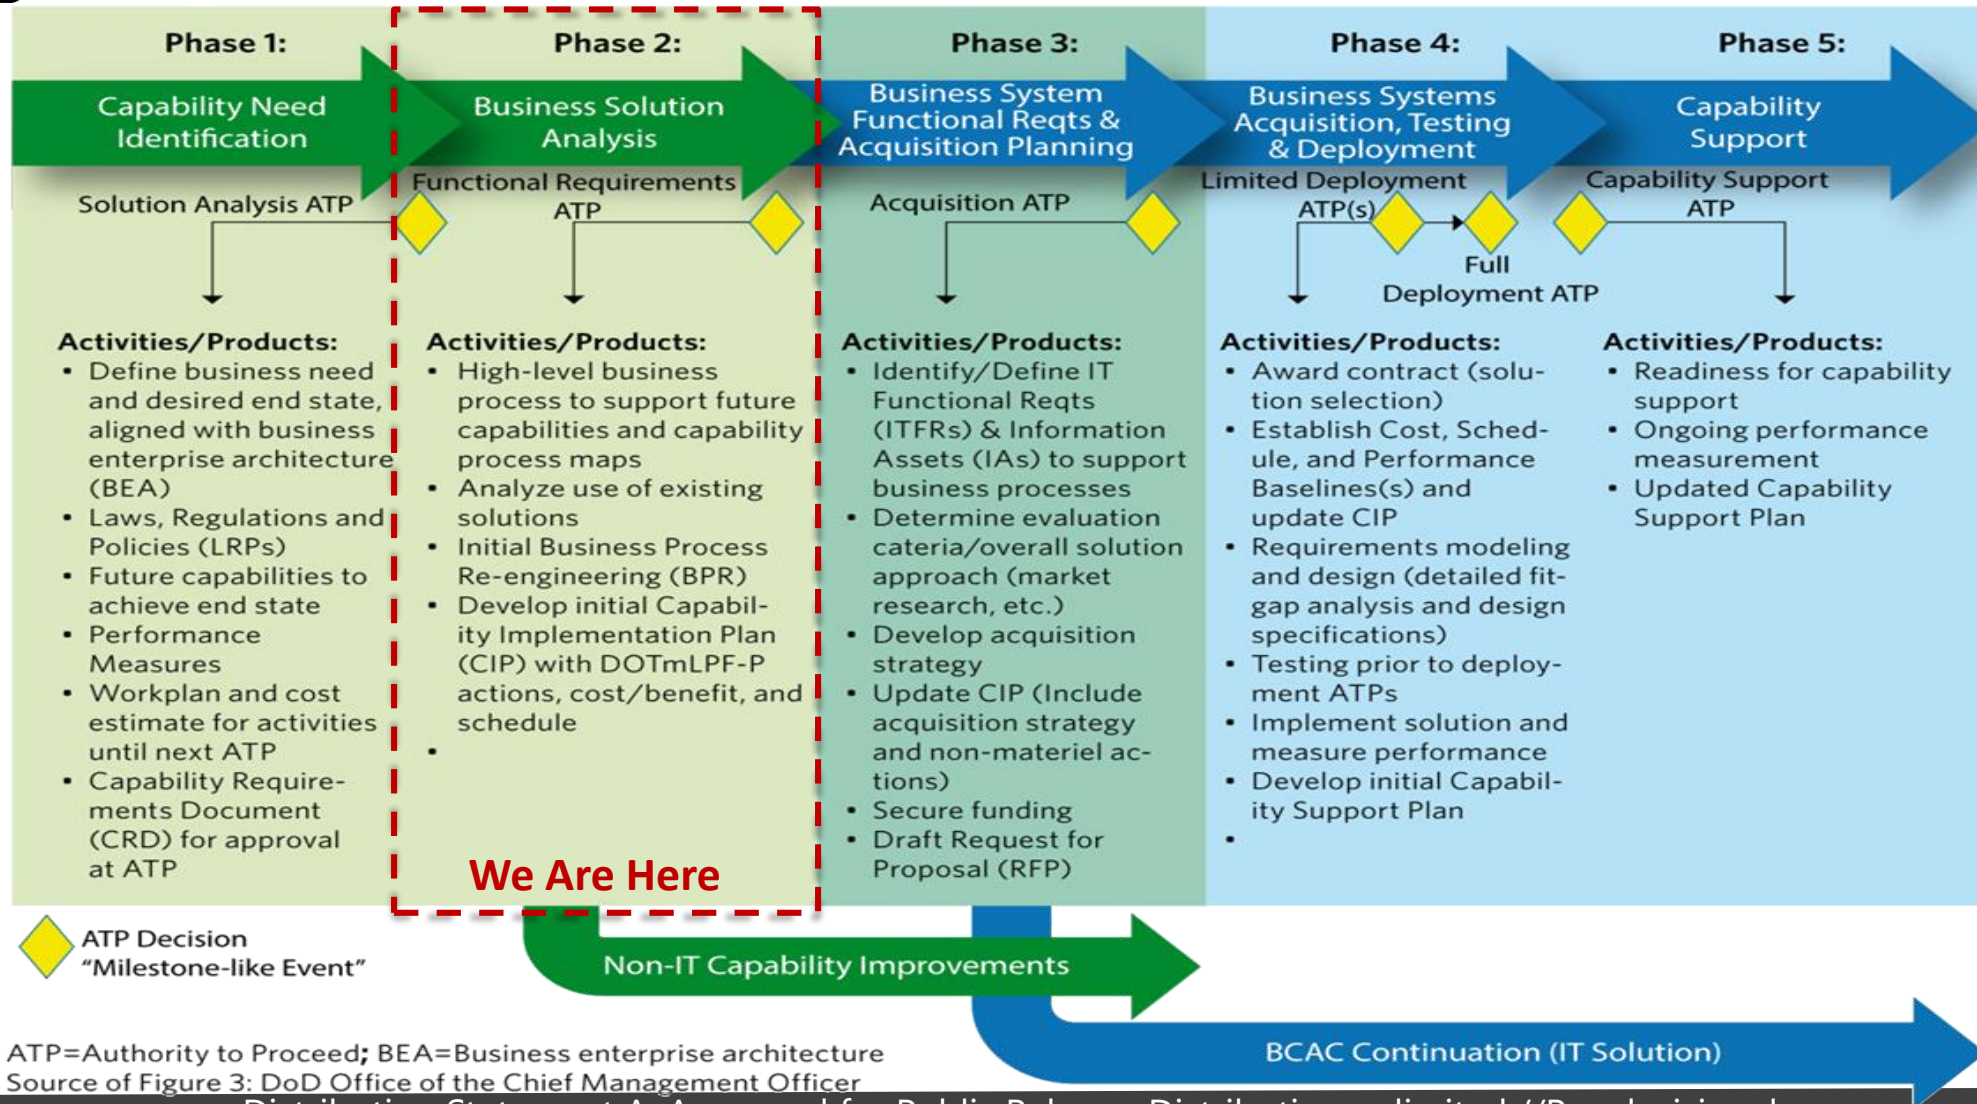

KEY:

- Logistics Modernization Program (LMP)
- General Fund Enterprise Business System (GFEBs)
- GFEBs-Sensitive Activities (GFEBs-SA)
- Headquarters Army Environmental System (HQAES)
- Global Combat Support System-Army (GCSS-Army)
- Army Enterprise Systems Integration Program Hub (AESIP Hub)
- Army Contract Writing System (ACWS)
- Global Force Information Management (GFIM)
- Integrated Personnel and Pay System (IPPS-A)
- Army Vantage
- Accessions Information Enterprise (AIE)

Effective Business Transformation

MAKE CHANGE A PRIORITY AND NOT AN OPTION

Agenda

Time	Activity
09:00 AM	Administrative Remarks Maj. Zane Williams, Assistant Product Manager, EBS-C
09:05 AM	Opening Remarks Mr. Ross R. Guckert, SES, Program Executive Officer, PEO EIS Brig. Gen. Michael Lalor, Director, EBS-C MFCT
09:30 AM	Program Overview Ms. Jeannie Winchester Product Lead, EBS-C, PEO EIS
09:50 AM	Functional Overview Ms. Jodi Narel, Chief EBS-Convergence Architect, EBS-C MFCT
10:15 AM	Break
10:30 AM	Q&A
11:30 PM	End of Industry Day

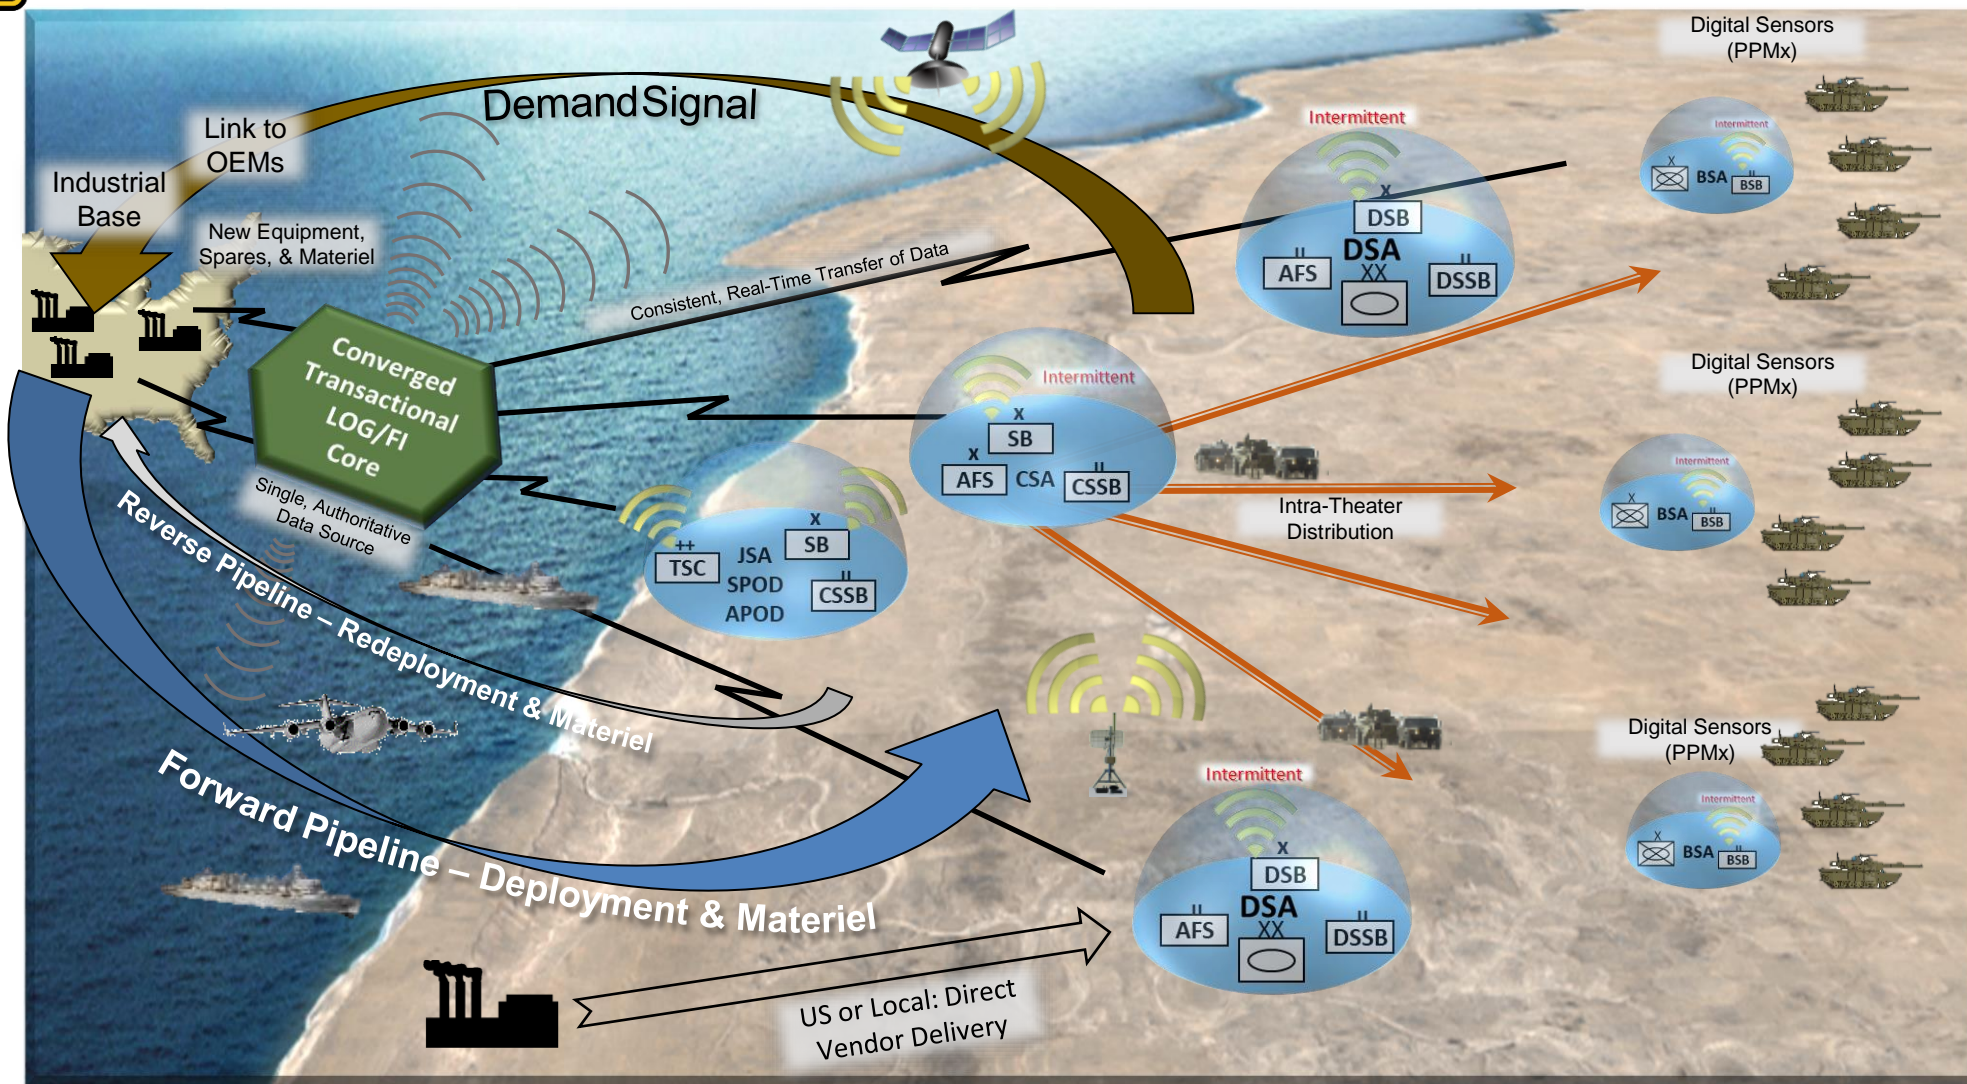

EBS-C Operational Overview

ENTERPRISE BUSINESS SYSTEMS-CONVERGENCE

Single, End-to-End Sustainment Architecture, Responsive to Warfighter Demands

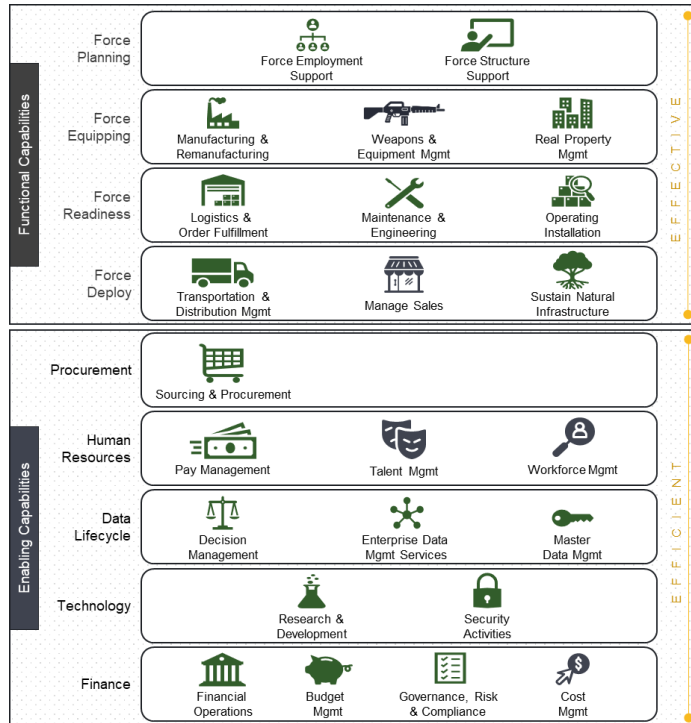

Operationalizing Business Processes

Functional Capabilities:
- Deliver Combat Effectiveness

Enabling Capabilities:
- Enable efficient delivery, of Functional Capabilities

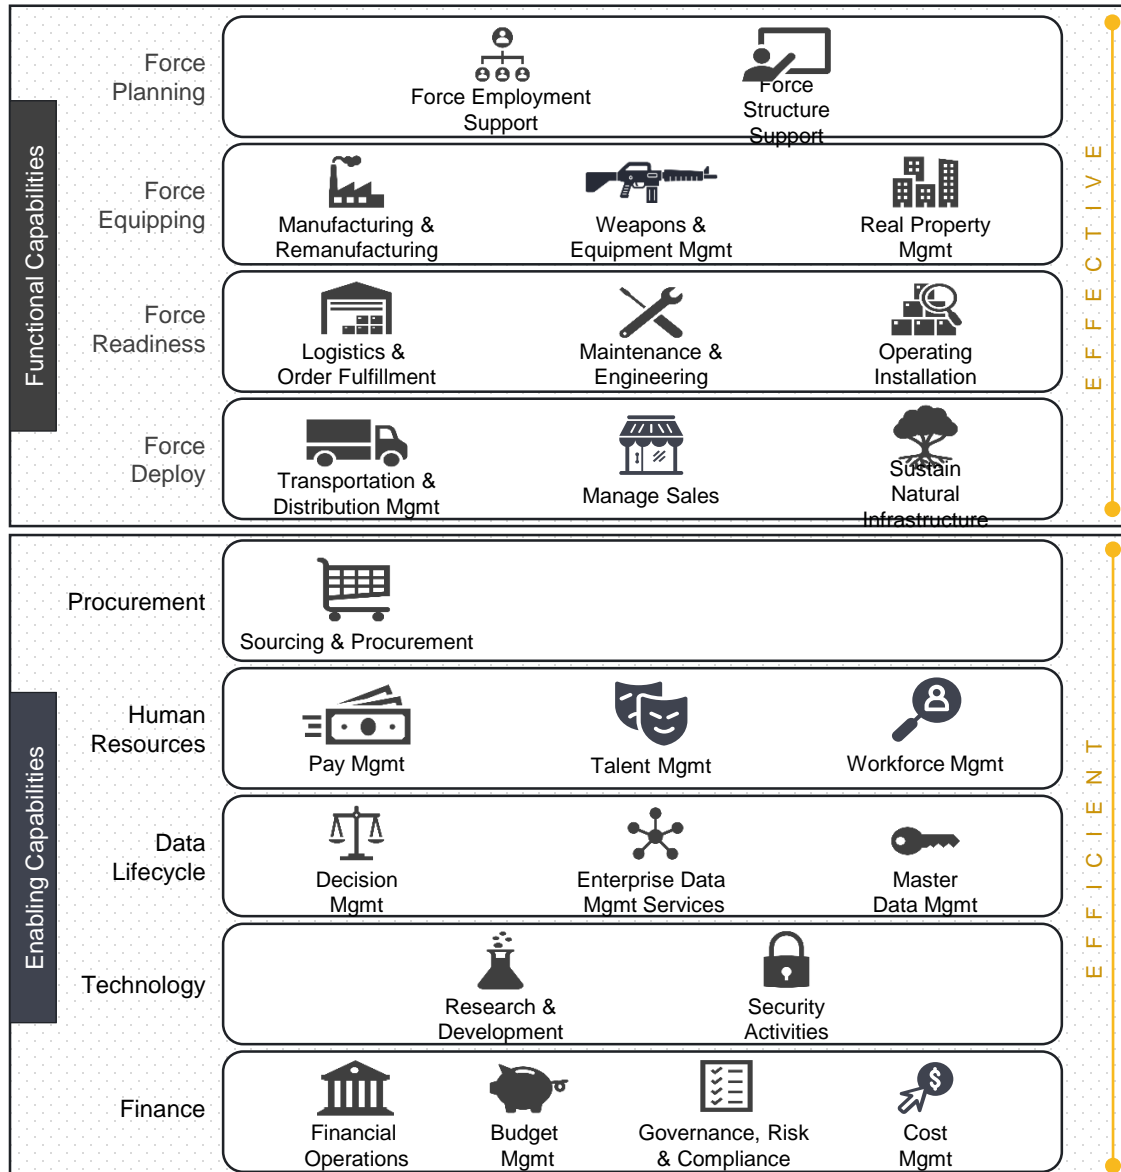

- Simplified, intuitive Soldier interface
- Speed of processing enables dynamic force requirements in MDO and links to mission command systems
- Single ordering process for all classes of supply
- End-to-end supply chain management in a single, authoritative system

- Integrated financials from budgeting to procurement to consumption
- Achieves sustainable audit compliance
- Ensures compliance with DOD Data Strategy goals (VAULTIS)
- Re-engineered business processes, maximizing use of Industry best practices

EBS-Convergence Scope

High-Level Outcomes

- 1 Improve Readiness**
 - Increased readiness through integration of Deploy to Redeploy/Retrograde
 - Improved generation of dynamic force and readiness
- 2 Return on Investment and Lower Total Cost of Ownership**
 - Cloud-based operations with disconnected operations support
 - Limit software customization
- 3 Measurable, Effective & Efficient Processes**
 - Improve supply chain (e.g. availability, forecast accuracy)
 - Integrated finance, supply, maintenance, transportation
 - Unified product lifecycle and technology insertion planning
- 4 Timely, Accurate, and Available Data to Support the Fight**
 - Common master data (VAUTIS)
 - Single log inventory management
 - Single business planning calculation
- 5 Out-of-the-Box and User Experience Focused**
 - Transactional core
 - Extensible framework responsive and resilient

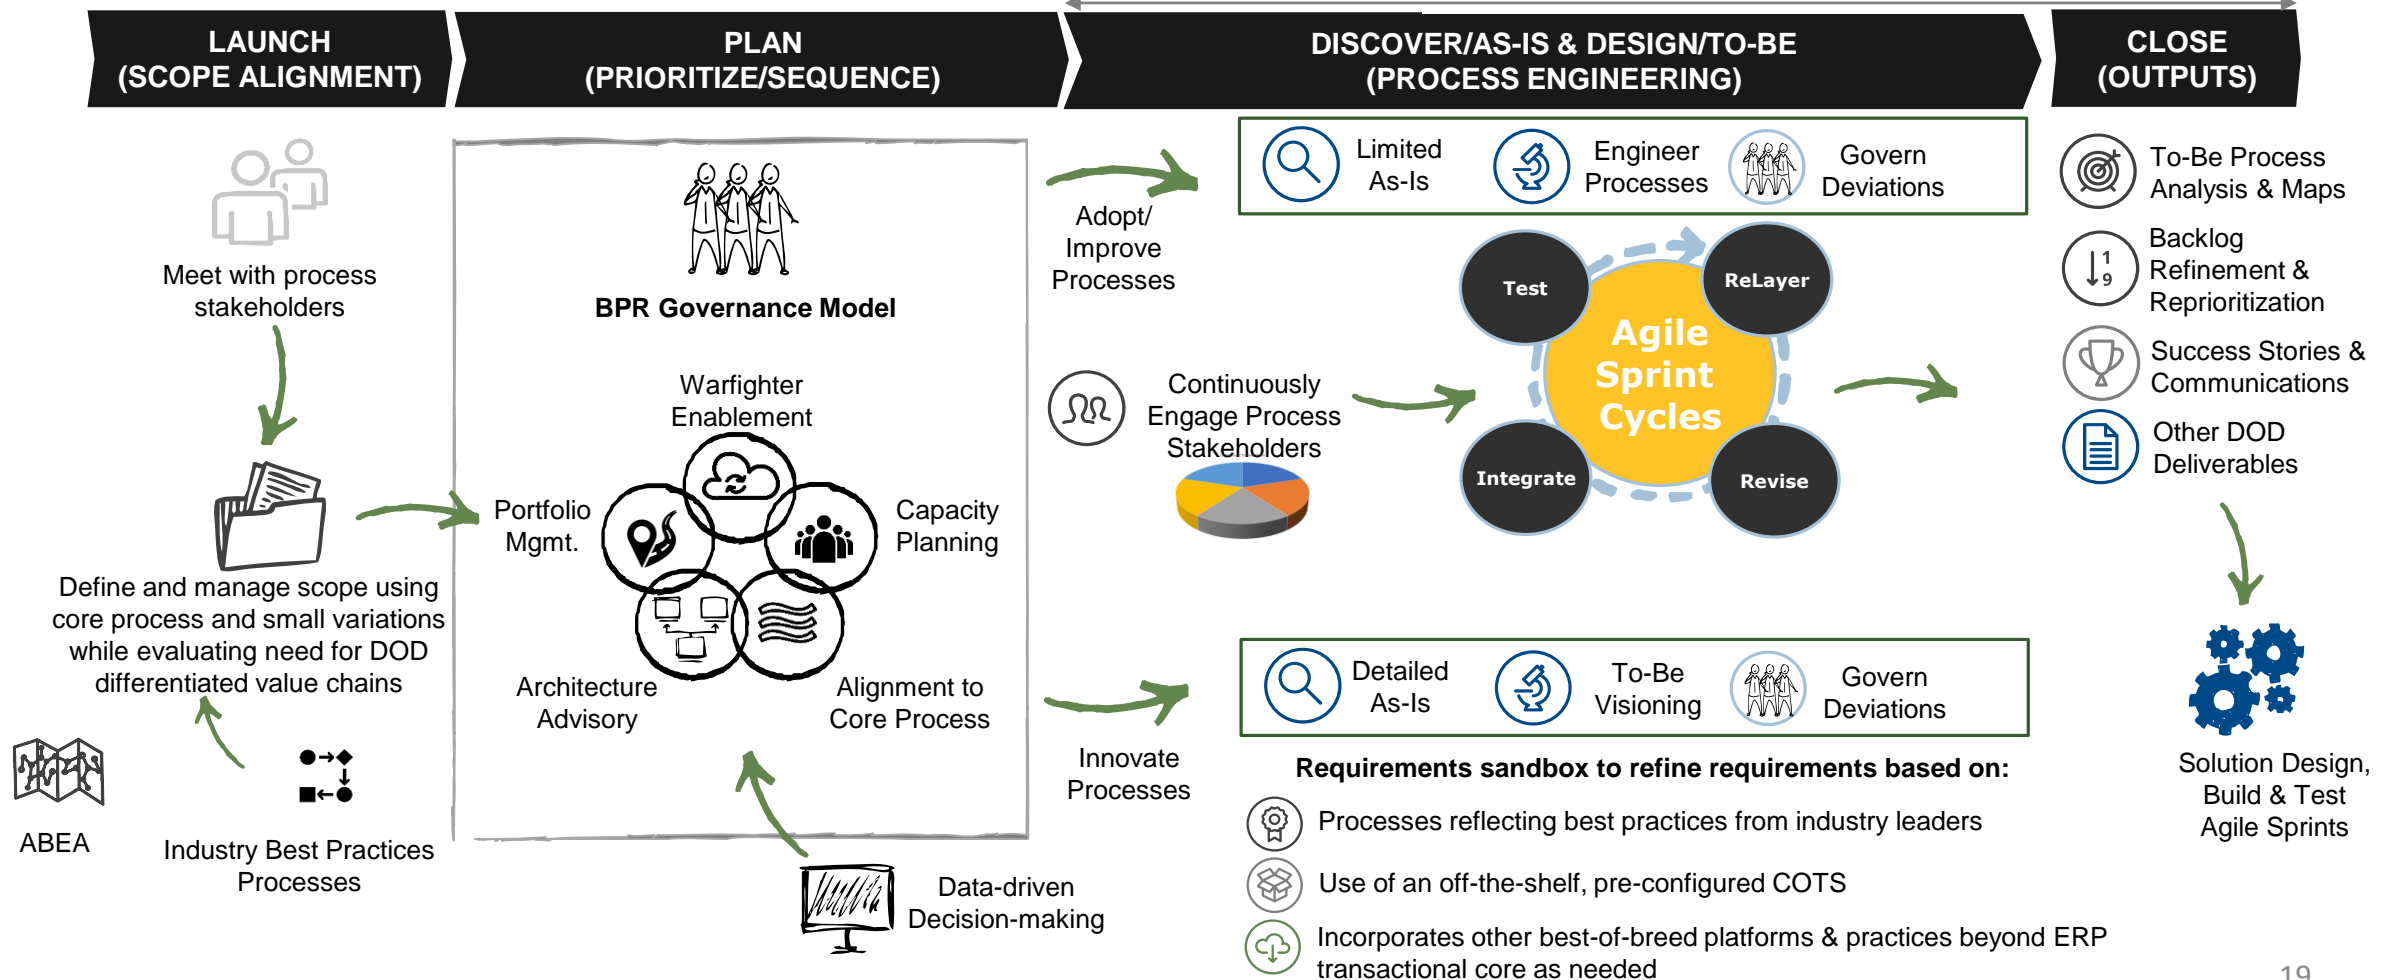

Agile Business Process Reengineering (BPR) Operating Model

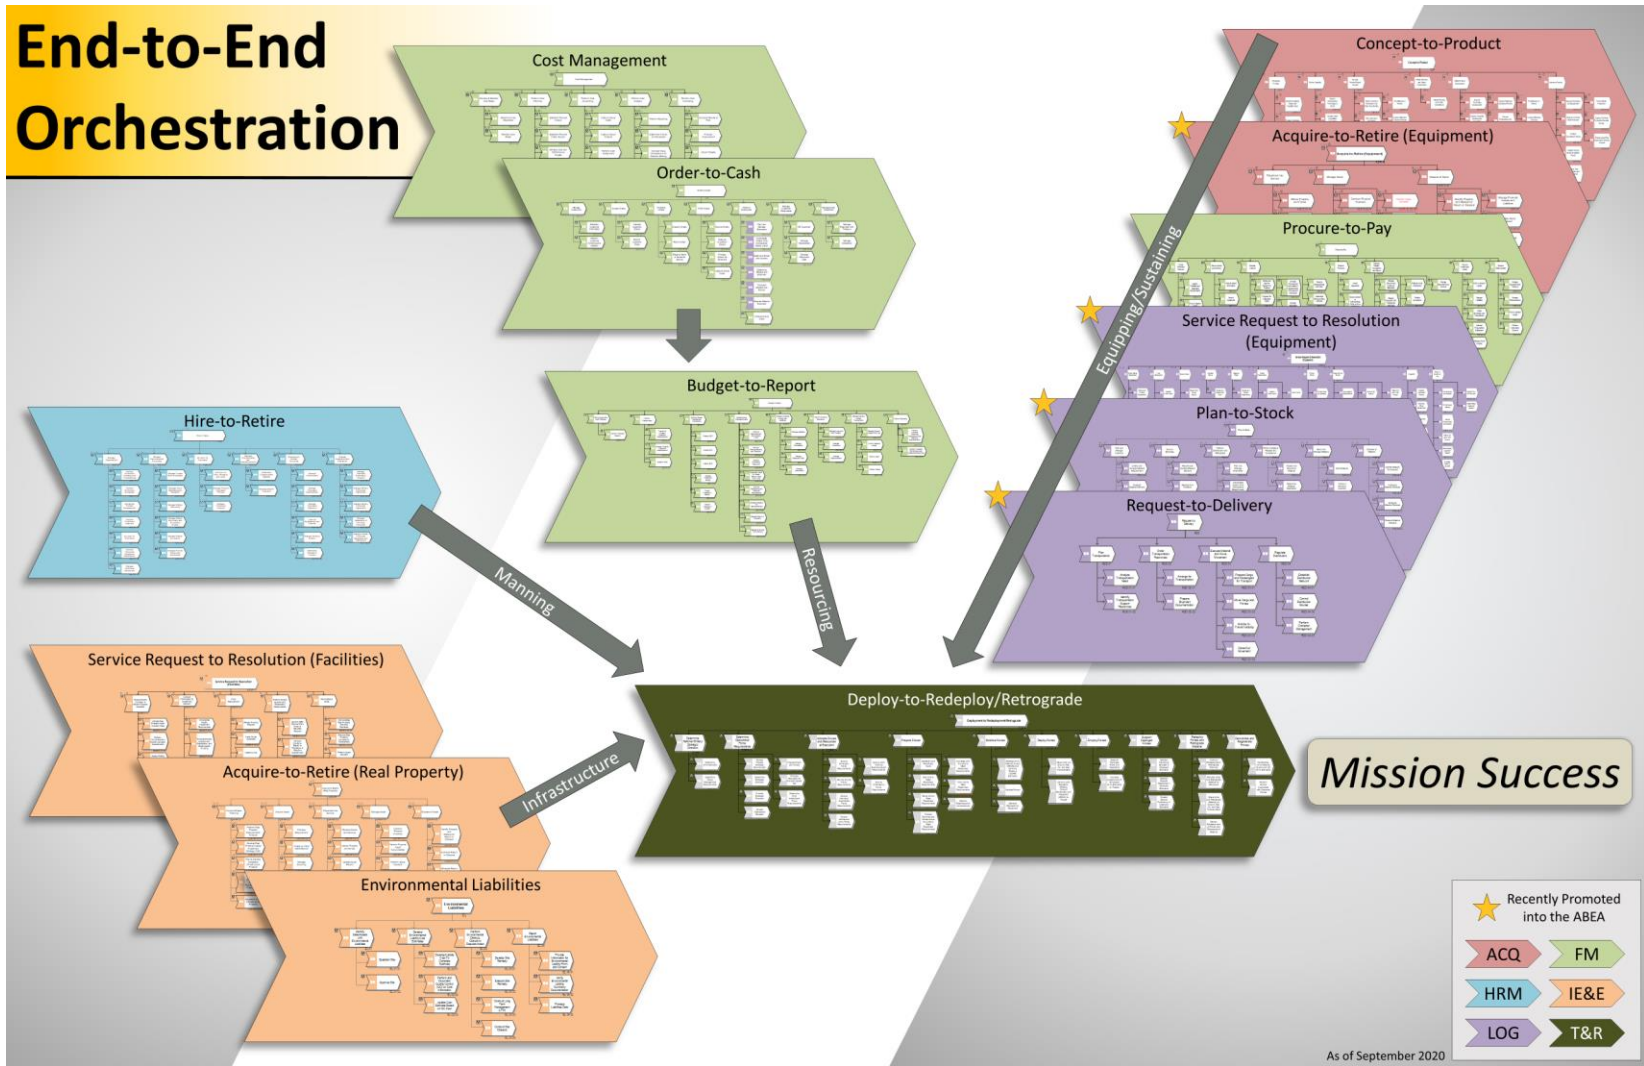

The Army must achieve real-time awareness of force capability and readiness in a Multi-Domain environment to safeguard Soldier lives and successfully achieve mission outcomes. Business Process Reengineering is the method used by industry and adopted by the **Army to rethink how we fight, what we fight with and who we are**. It provides the tools and approach to design and develop business processes implemented in an Enterprise Business System that rapidly adapts to overmatch the enemy.

AGILE DELIVERY MANAGEMENT

Army Business Enterprise Architecture (ABEA) Overview

- 17 End-to-End Processes*
- 2,480+ Army-specific or Army-refined Operational Activities
- 510+ Systems in the Known BMA Portfolio
- 60 Line-of-Business IT Portfolios

ABEA Content Highlights

* Engagement to Prospect, Proposal to Award, Service to Satisfaction not shown

Agenda
